Virginia Mason is committed to providing the highest quality healthcare while preserving our natural environment for our community now and for future generations. We accomplish this by:

- Meeting or exceeding all environmental laws and regulations.
- Conserving energy, water, materials, and other resources.
- Minimizing waste through source reduction, reuse, and recycling programs.
- Continually increasing our purchases of environmentally preferable and/or local products and services.
- Empowering our employees to innovate in ways that reduce our environmental impact.
- Educating our patients, team members, and community on the environmental and health benefits of sustainability.
